Professional Summary

Full Stack Developer with expertise in React, Node.js, JavaScript, and MySQL. Proven track record of building responsive web applications, real-time communication systems, and cloud-integrated solutions. Skilled in collaborating within Agile teams to deliver clean, efficient, and scalable solutions with a strong focus on building AI Agents.

Technical Skills

Frontend: React.js, JavaScript, HTML, CSS, React Native
Backend: Node.js, Express.js, Firebase (Authentication, Firestore), REST APIs
Database: MongoDB, MySQL
Tools & Platforms: Git, GitHub, Vercel, Netlify, Postman, Docker
Additional Skills: UI/UX Design, Figma, WordPress, MS Office, Agentic AI

Experience

Web Development Intern, OasisInfoByte   Feb 2025 - Mar 2025
- Working on beginner-to-advanced-level projects in web development.

  Project 1 : Landing page   [Code] — [Live]
  - The landing page describes India and its rich cultural heritage, breathtaking landscapes, and exquisite cuisine.
  - It also describes the geographical highlights of India.

  Project 2 : Find my Number Game   [Code] — [Live]
  - Developed an interactive number guessing game utilising binary logic for guessing numbers.
  - Designed a mobile-responsive layout with smooth animations.

  Project 3 : Temperature-converter   [Code] — [Live]
  - A temperature converter app quickly converts temperature measures from one unit to another, such as Celsius, Fahrenheit, and Kelvin. It is easy for users to enter a temperature using one unit and see its translation in other units instantly.
  - The convenient application avoids the hassle of calculations, giving fast and precise conversions for use in daily life, science, or when travelling. Its user-friendly interface makes it easy for anyone who requires temperature translations.

Full Stack Intern, Aavanto and Lorven Technology Private Limited   Sept 2023 - Nov 2023
- Contributed to full-stack web application development, focusing on both front-end and back-end.

  Project : Weather Web Application   [Code] — [Live]
  - Developed a responsive weather web application that uses the API for real-time weather data.
  - Integrated geolocation support, dynamic weather icons, and video backgrounds for enhanced UI/UX.
  - Optimised for mobile and desktop with a focus on performance.

Education

Siddharth Institute of Engineering and Technology, Puttur   2020 - 2024
- Bachelor of Technology in Computer Science and Engineering (Internet of things and cyber security including Blockchain Technology) — CGPA: 8.03

Certifications

Employability Skills Program – Advanced by WADHWANI Foundation
- The programme concentrates on the improvement of sophisticated communication, interpersonal, and problem-solving skills.

Microsoft Azure Fundamentals
- It confirms fundamental cloud principles, major Azure services, and Azure management tools.
